

Friday night.

Dear Debora,

Nov 16.

I received your letters & papers
by Mr & safely & was glad to hear
you arrived safely. Caroline's & Maria's
things will not come this week
as the weather has been so
rainy. I enclose Maria's gloves
which she seems determined to
leave here. Send the enclosed
note after you have sealed it
to Henrietta. Read my letter to
Garrison & if you & Maria
think it had much better not
be sent, why do not send it;
but I think something ought to
be done as I think I could
show you had I time. All are
pretty well here. Asa Webb
has lost his mother. & Col Bates
son is just out the point of death
with a typhus fever. I saw in
a Durham paper to day that

with a typhus fever. I saw in
a Southern paper to day that

a book entitled "Men & Things in
America. The result of observations
made during a years Residence
in America, by George Thompson"
had been published in London.

I tremble at what may be in

On the first day
of December wind & weather peculiar

As soon as you can conveniently
I advise you to call at Warren's
boarding place & see how he
is settled. Write out by Henry
if possible & send the
Report & Warren's clothes if
you have them.

Yrs ever A M Weston.

If this comes through Henry
the Tufts, you can send out
by Henry at night
only send it in season as
